Re: Student safety in the summer months

Dear parent(s) and carer(s)

Now that summer has finally arrived we are once again reminding all students about their personal safety. With a lessening of COVID-19 restrictions culminating with the lighter evenings we are increasingly needing to remind students of the need to be vigilant, in particular with their personal belongings.

As such, we continue to recommend that your son/daughter:

- Does not travel to school with expensive electronic equipment highly visible – in particular this relates to the use of mobile phones and wireless (ear-bud style) headphones
- Where possible, should not travel home individually, but with a friend or wider group
- Reports any suspicious behaviour

As ever the school's approach is built around pragmatism; the need to raise awareness and accountability amongst the students, without causing fear or alarm.

I would appreciate it if you could discuss the contents of this letter with your son/daughter this evening.

Please do not hesitate to contact us at the school if you have any questions.

Yours sincerely

Mr R Bell
Deputy Head
