Re: School Uniform – Summer Term

Dear parent(s)/carer(s)

As we enter a period of prolonged warm weather, I am writing with information about uniform:

- Students are no longer expected to be bringing coats to school (unless the weather is particularly inclement).
- Please encourage your son/daughter to wear sun cream where possible. At this time of year UV levels are particularly high and we are conscious that students are spending more time than ever outside of the school buildings. It is important that I point out that all of our 'bubble zone' locations do have shaded areas for students to stand under.
- From tomorrow, students are not required to attend school in their blazer. The forecast is for some very warm/hot weather until the middle of next week. If the temperature cools dramatically again, then we will ask students to wear their blazers again.
- Please ensure your son/daughter brings a refillable water bottle with them to school. We encourage all students to ensure that they are drinking plenty of water during the school day

Thank you for your support and understanding; if you have any questions please contact us at the school.

Yours sincerely

Mr R Bell
Deputy Headteacher
